The ball is next to and inbetween the calculator and the abacus.

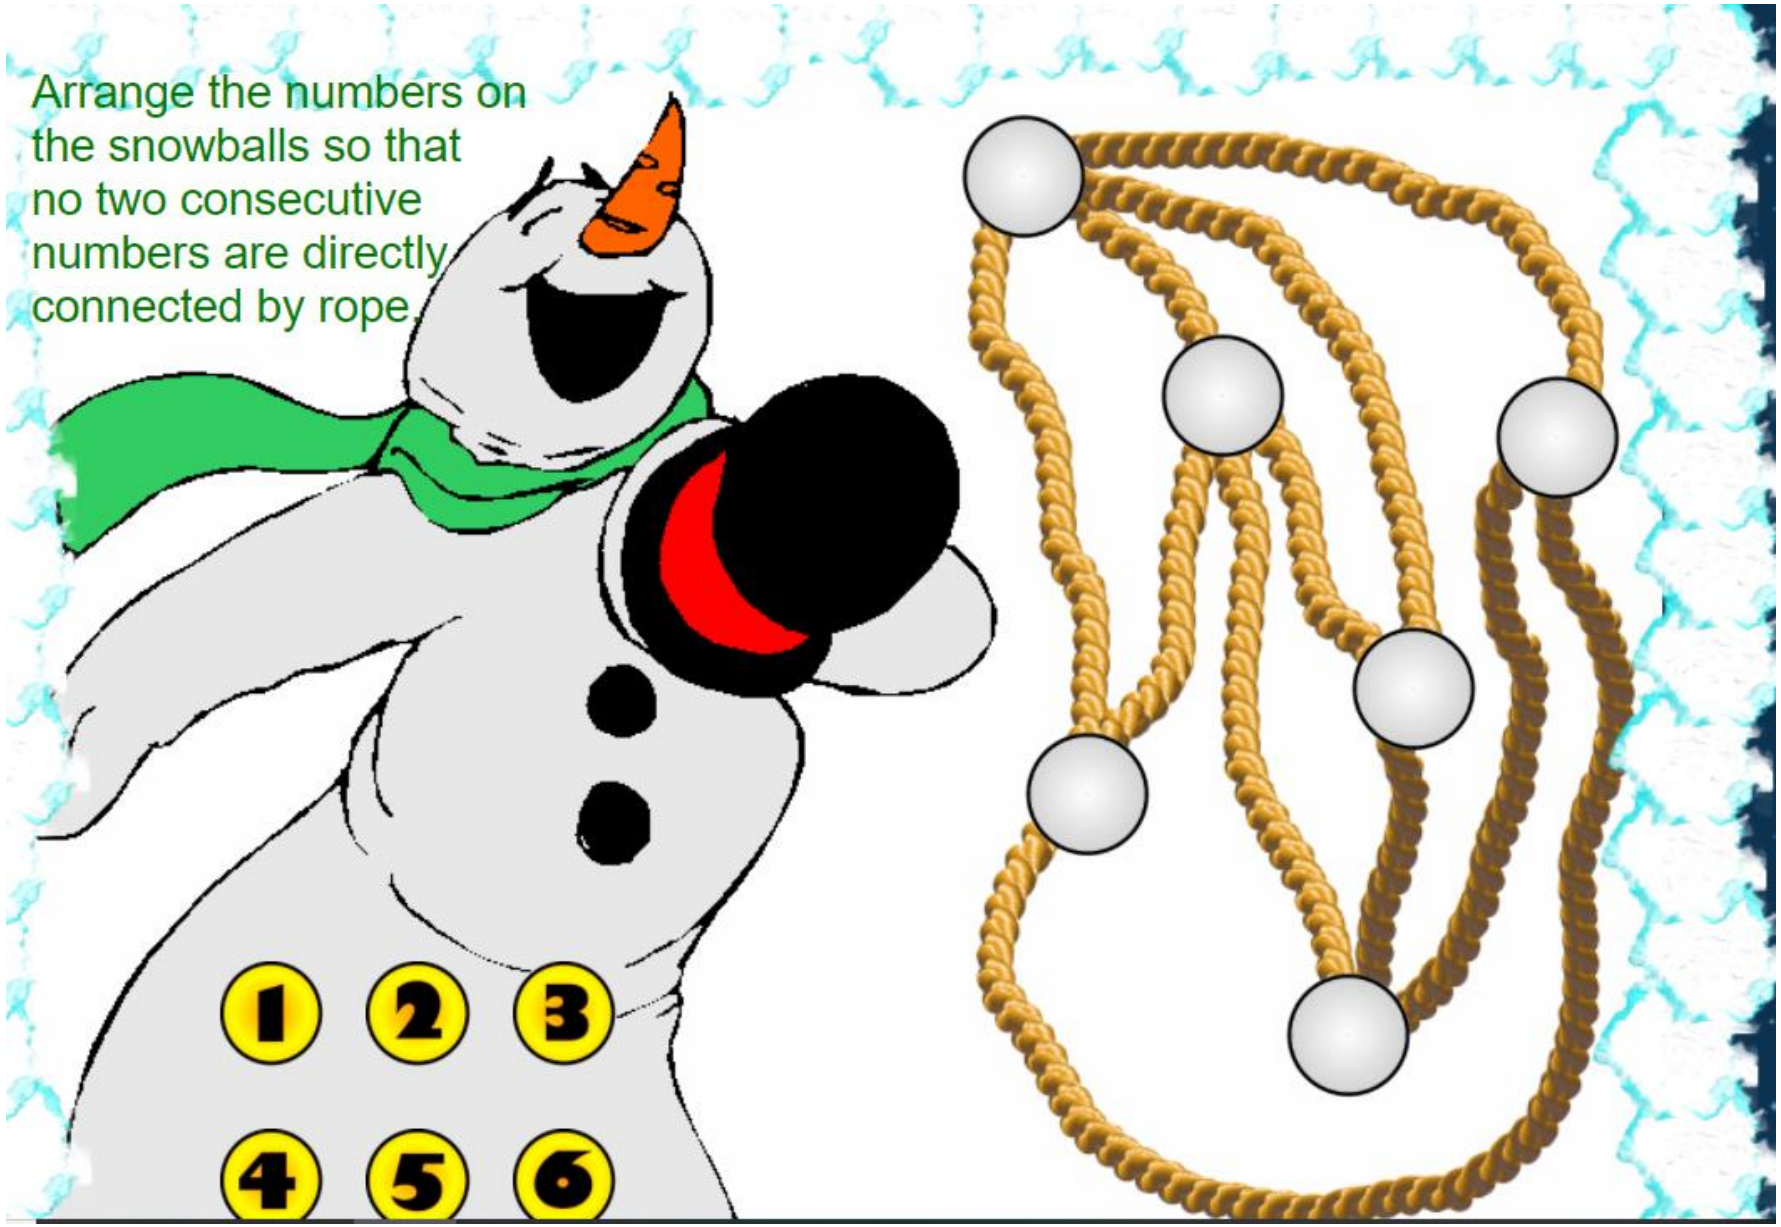
The three presents on the right cost a total of £20.

The calculator costs twice as much as the ball.

The abacus costs £3 more than the diary.

The diary is next to and on the immediate right of the abacus.

The three presents on the left cost a total of £19.



Arrange the numbers on the snowballs so that no two consecutive numbers are directly connected by rope.
