

01.02.22

Identifying previous and next multiples of 8

previous multiple of 8

16

next multiple of 8

previous multiple of 8

64

next multiple of 8

previous multiple of 8

32

next multiple of 8

previous multiple of 8

40

next multiple of 8

If you did not know how to work out 8×7 , what could you do? Show your workings below

01.02.22 Making links between the 2, 4 and 8 times tables

I know the 2x, 4x and 8x tables are linked but I don't know how to show this. Show me how below.
