

Tuesday 15th March 2022

MPI: using the 5 and 10 timetables to solve division equations

Look at the array. Write the multiplication and division equations to match.

Multiplication _____

Division _____

There are 45 chocolates altogether. They come in trays of 5. How many trays will you need? Write the multiplication and division.

Multiplication: _____

Division: _____

$8 \times 5 = 40$

so

$40 \div 5 = \square$

$7 \times 5 = \square$

so

$35 \div 5 = \square$

$6 \times 5 = 30$

so

$30 \div 5 = \square$

$5 \times 5 = 25$

so

$25 \div 5 = \square$

$5 \times 10 = 50$

so

$50 \div 10 = \square$

$6 \times 10 = \square$

so

$60 \div 10 = \square$

$10 \times 7 = 70$

so

$70 \div 10 = \square$

$10 \times 8 = 80$

so

$80 \div 10 = \square$

• 'Fill in the missing numbers.'

$\square \times 10 = 30$

so

$30 \div 10 = \square$

$\square \times 10 = \square$

so

$50 \div 10 = \square$

$\square \times \square = \square$

so

$70 \div 10 = \square$

$15 \times 10 = 150$

so

$150 \div 10 = \square$

'Fill in the missing numbers.'

$\square \times 5 = 15$

so

$15 \div 5 = \square$

$\square \times 5 = \square$

so

$30 \div 5 = \square$

$\square \times \square = \square$

so

$45 \div 5 = \square$

$15 \times 5 = 75$

so

$75 \div 5 = \square$

Wednesday 16th March 2022

MPI: using the 2 times tables to solve division equations

Look at the array. Write the multiplication and division equations to match.

Multiplication

Division

There are 32 oranges altogether. They come in trays of 2. How many trays will you need? Write the multiplication and division.

Multiplication: _____

Division: _____

Fill in the missing boxes

$5 \times 2 = 10$

so

$10 \div 2 = \square$

$2 \times 7 = 14$

so

$14 \div 2 = \square$

$6 \times 2 = 12$

so

$12 \div 2 = \square$

$2 \times 8 = 16$

so

$16 \div 2 = \square$

Fill in the missing boxes and write the multiplication equation next to it

$2 \div 2 = \square$ _____

$4 \div 2 = \square$ _____

$6 \div 2 = \square$ _____

$8 \div 2 = \square$ _____

'Fill in the missing numbers.'

$\square \times 2 = 6$

so

$6 \div 2 = \square$

$\square \times \square = \square$

so

$18 \div 2 = \square$

$\square \times 2 = \square$

so

$12 \div 2 = \square$

$15 \times 2 = 30$

so

$30 \div 2 = \square$

Fill in the missing numbers.

	1		3	4		6	
$\times 2 \downarrow$	2	4		8	10		$\uparrow \div 2$
