MPI: Identifying angles

Each picture below is made of two lines. Circle the figures that form angles.

Find all the angles in these letters. The first example with the Y is done for you.

MPI: Identifying angles

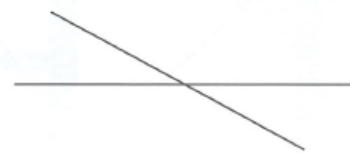

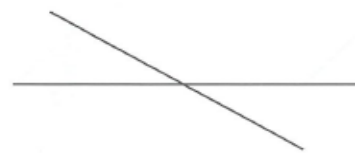

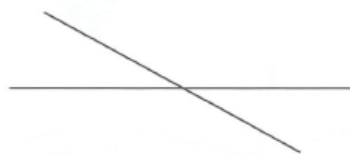

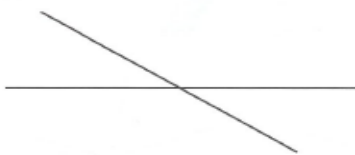

Put a tick (✓) for objects that make angles and put a cross (X) for objects that do not make angles.

Mark all the angles that can be found in the pictures below. An example is done for you.

(a)

(b)
