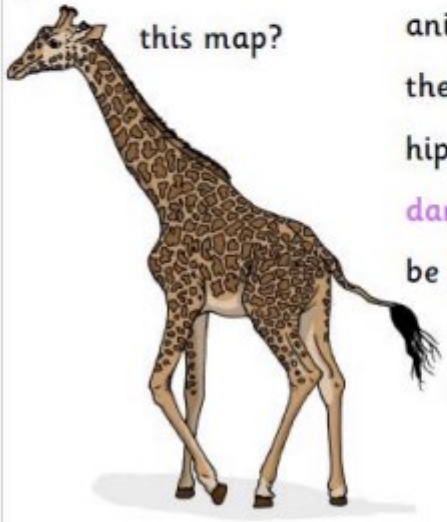
Africa

A lot of people think that Africa is a country, but it is not! Africa is a continent, which is a group of countries. There are 54 countries in Africa.

Where is it?

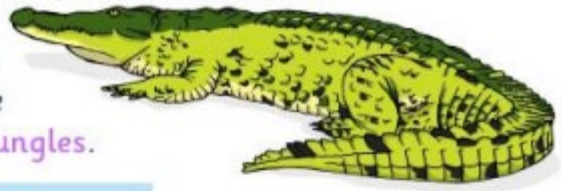
There are seven continents in the world. Africa is the hottest continent in the world. Can you find Africa on this map?



Animals in Africa.

Africa is home to the largest land animal, the African elephant, and the tallest animal, the giraffe. The hippo is one of the most dangerous animals and can also be found in Africa, as well as the fastest animal in the world, the cheetah.

You might also find the largest reptile in the world, the Nile Crocodile, and the largest primate, the gorilla, in the African jungles.



The Nile.

Africa has the world's longest river, the Nile. It flows from South to North, down to the sea.

Who lives in Africa?

About one billion people live in Africa, and more than a thousand languages are spoken.

Would you like to find out more about this amazing continent?

Map of Europe

Location

Greece is located in Europe and is surrounded by different countries and bodies of water.

Climate

The climate of Greece during the summer is slightly hot and dry, while the winter is wet. The weather is mild throughout the year.

Terrain

Greece is mostly mountainous with ranges extending to the sea as peninsulas and island chains.

Famous Cities and Landmarks

Some of the major cities are Athens, Kalamata, and Patras. They are the center of commerce and often host tourists visiting from other countries. One landmark tourists should visit is the Parthenon in Athens. Originally a major temple worshiping the goddess of wisdom Athena, it was later converted to a treasury for the Delian League. The League later became known as the Athenian Empire.

Australia

Classification

The Aboriginal and Torres Strait Islander Peoples were the first people to live in Australia. The main language that is spoken within Australia, is English. Australia is a very multicultural country, with people from different countries living here.

Flag

The Australian flag is blue, white and red. There are six stars on the flag. Five of the stars make up the Southern Cross. The Southern Cross is a symbol of Australia being found in the Southern Hemisphere. The seven-pointed star represents the different states and territories of Australia. In the top left-hand corner of the flag is the Union Jack. This symbolises Australia's connection to England and their rules.

Food

In Australia, there are all different kinds of foods. This is because Australia is very multicultural. As people moved to Australia from different countries, they brought their traditional foods with them. Australians are well-known for eating yeast extract spread, prawns, meat pies, tomato sauce and barbecue food.

Landmarks

In Australia, there are many landmarks like Uluru, Sydney Harbour Bridge, the Sydney Opera House, and the Great Barrier Reef. People from all over the world like to visit these landmarks because they are all so beautiful. When people visit these landmarks, they must remember that there can be certain rules to obey in order for these to stay special for a long time.
