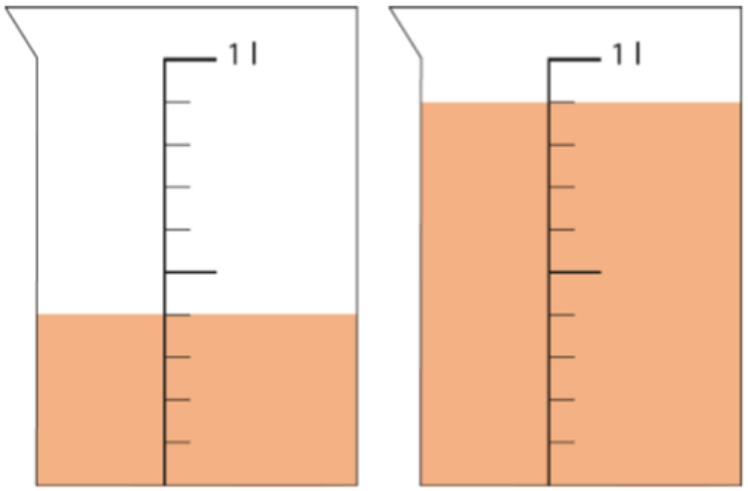
CHALLENGE

'How much water is in the two measuring beakers altogether?'



- 'Decide whether each expression is true or false. Put a tick or a cross in each box.'

☐ 900 + 900 – 100

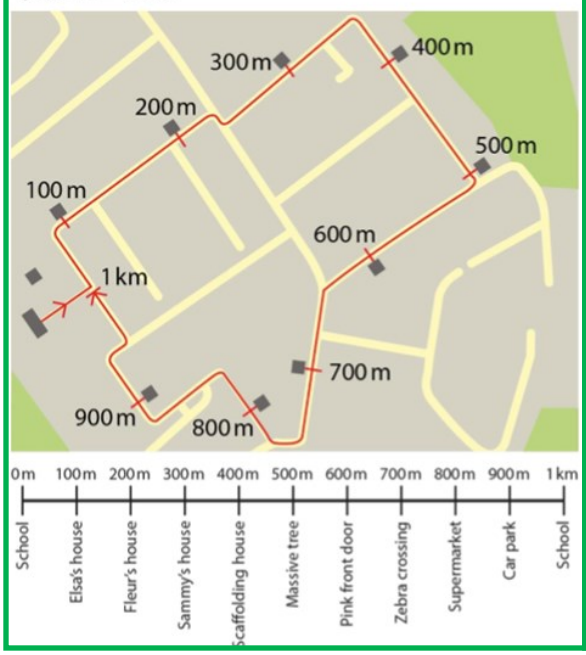
500 + 700 + 400 ☐

1,700

☐ 900 + 200 + 500

300 + 800 + 600 ☐

1,000 m = 1 km:



Jo walks from school, to the massive tree. He then walks to the car park. After this he walks back to school and then finally to Sammy's house.

How far did he walk in total?
