

Year 5 End of Unit Test A2 Addition and Subtraction

100 1000 1000 1000 1000 1000 100

1000 1000 1000 100 100 100

1 100

100 100 100 100

What is my number?

.....

.....

Now add 3,200 to my number

.....

Calculate

$10,000 - 8,985 = \dots\dots\dots$

$184,000 + 6,200 = \dots\dots\dots$

Calculate the difference

in the price of these two cars

.....

£3,200

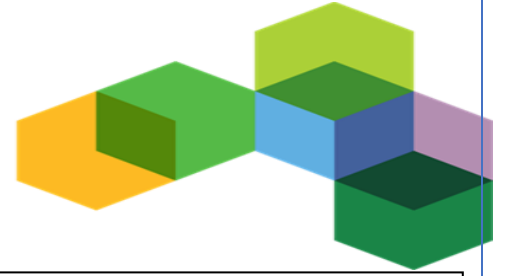

£2,195

Tick or x to show if it is correct or not

	✓ or x
$101 + 99 = 100 + 100$	
$27 + 56 = 28 + 57$	
$248,000 + 564,000 = 148,000 + 464,000$	
$0.27 + 0.56 = 0.23 + 0.6$	

Complete these calculation

$$10,700 + 4,810 = 9,700 + \dots\dots\dots$$

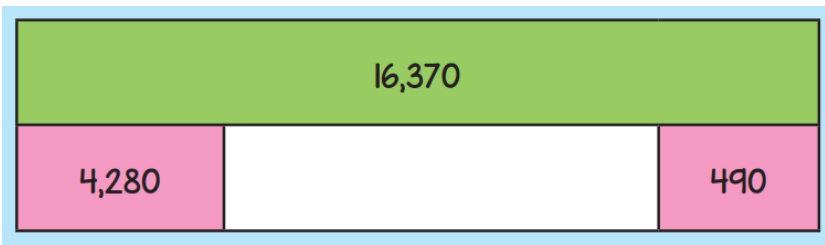

$$10,700 + 4,810 = 10,400 + \dots\dots\dots$$

There are 20 children in a class. There are 6 more boys than girls. How many girls? How many boys?

Girls

Boys

Fill in the missing number on the bar model

UCPS put on a concert on Saturday and Sunday.

On Saturday 1,750 people went to the UCPS concert.

On Sunday 875 more people went to the UCPS concert than on Saturday.

How many people in total went to the concert?

.....

Complete the sequence.

The numbers decrease by the same amount each time

75,480 74,580 73,680 72,780

Complete the missing numbers

		4	7		4	6
	-		3	5	2	9
		4	3	8		7
