Sports Premium 2022-23

Key achievements to date (May 2023)	Areas for further improvement and baseline evidence of need:
<ul style="list-style-type: none"> The children at UCPS have had the opportunity to take part in a range of enrichment days and sporting activities, these include professional athlete workshops and demonstrations. The children's experiences of these have not only inspired many to show an interest in sports such as scootering and rugby but also allowed a truly inclusive and rounded curriculum. Additional opportunities for children with SEND to participate in sporting activities have been provided, ensuring physical activity events are accessible to all. These have been carefully planned to ensure that the needs of every child is met and ultimately a positive experience has been gained. Collaboration with the South Cambs Sports Partnership to deliver high quality events and competitions (Let Girls Play Football Festival, Under 11 Girls ESFA county finals, kuicksticks Hockey, Tag rugby, Athletics, Netball). Children's activity levels have been explored using specialist Moki fitness trackers. These have provided detailed summaries upon the children's levels of moderate to vigorous daily activity (MVPL) and allowed us to target future physical activity interventions to year groups and individuals. Professional development has taken place in the areas of Physical Education Leadership, Football coaching and also Sensory circuits. This training has provided opportunities for collaboration with many teaching professionals, coaches and advisers specialising in various areas of Physical Education within our local area. UCPS has offered a broad range of sporting clubs this school year both before school and after school including Table tennis (year 4 and year 5/6), running clubs, tennis clubs, rugby clubs, football clubs for both years 1 and 2 and 3 and 4, netball, gymnastics, Hockey, Dance, Dodgeball, Tae Kwon Do, Lacrosse and cricket. This enabling young people to be physically active across the school day and beyond. 3:30-4:15 for afterschool clubs and 7:40-8:25 for morning clubs. To ensure competitions are enjoyed by all children that attend we have provided a range of opportunities for the children to prepare for competition. This has been in the form of friendly after school matches with local schools, clubs and afterschool competition training events. To ensure competition is also something experienced by many, we have organised friendly competitions with local schools such as St Mary's (Year 6 Cricket) and hosted friendly cricket Events for some of the Year 5 girls at UCPS. We have also supported young sports leaders from other schools to develop their skills, through the delivery of exciting multi-skills events to 180 children from Reception and Year 1 at UCPS. Our school has used the REAL Legacy Physical education program to support the long-term vision of the school and to create positive relationships. Play leaders training has been provided to children in Year 5. This has allowed the children to become young leaders and to support others to become more active during their break and lunchtimes. With support they have built a repertoire of games and skills and have been involved in large assembly presentations to communicate their roles to others. 	<p>Next year we will continue to provide inspirational opportunities to get the children excited about different sports. To build upon this we will aim to broaden the range of sports offered at the school.</p> <p>Build upon competitive opportunities for children with SEND.</p> <p>Create UCPS teams for specific sports/ competitions.</p> <p>Further Professional development opportunities for staff.</p> <p>Sensory breaks training for all members of staff working with children that may benefit from this.</p>

<ul style="list-style-type: none">• All year 5 children have attended swimming sessions to ensure that they can confidently and proficiently swim over a distance of at least 25metres, use a range of strokes effectively and perform safe self-rescue in different water-based situations.• Additional swimming sessions have also been arranged for any children who may have needed further sessions to achieve these three statements.• All Year 6 children have had Mini Medics training to enable them to understand basic first aid and look after their own and others safety.• Daily mile timetable has been created to ensure that all children have regular activity breaks throughout the school day.	<p>Sports curriculum resources enhanced.</p> <p>Sports Leaders to continue into year 6 and more year 5 leaders to be trained up.</p> <p>Track after school clubs' impact on activity levels using MOKI fitness trackers.</p> <p>Introduce session evaluation forms to gain further feedback and to monitor impact of clubs and events.</p>
