

Tuesday 7th November

Mentally add using adjustment/rebalancing

Underneath each calculation, write how you adjusted it, and the answer.

$$56 + 198 =$$

---

$$112 + 599 =$$

---

$$351 + 99 =$$

---

$$199 + 92 =$$

---

Now rebalance these money equations and solve:

$$£3.33 + 99p =$$

---

$$£1.12 + 98p =$$

---

$$£3.50 + £1.97 =$$

---

$$£7.99 + £8.98 =$$

---

**Challenge:**

Solve in your Maths book:

$$£3.33 + 99p + 98p =$$

$$£1.12 + 98p + £8.98 =$$

$$£3.50 + £1.97 + 99p + 98p =$$

$$£7.99 + £3.98 + £7.99 + £3.98 =$$
