

Recapped learning from Session 1:

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

Tiny is working out $60 \div 3$

I know 6 ones \div 3 is equal to 2 ones.
So 6 tens \div 3 is equal to 2 tens.
 $60 \div 3 = 20$

Use Tiny's method to work out the divisions.

$$80 \div 4$$

$$90 \div 3$$

$$60 \div 2$$

$$70 \div 7$$

Fill in the missing numbers:

a) $3 \times \square = 90$

d) $\square \times 20 = 160$

b) $8 \times \square = 240$

e) $360 = 6 \times \square$

c) $\square \times 5 = 150$

f) $280 = \square \times 40$

$32 \div 8 = 4$, so
 $320 \div 80 = 40$

Do you agree? Explain your answer:
