

Dear parents and carers,

We are excited to inform you about an upcoming showcase event at the end of this term that celebrates the incredible work our Year 1 students have been doing in Design Technology and Computing.

Throughout the term, the children have been focusing on the important topic of sustainability in Design Technology and exploring the world of coding in Computing. They have been working diligently on various projects, learning how to create eco-friendly designs and develop coding skills.

To showcase their hard work and creativity, we will be hosting a special event where students will have the opportunity to present their projects to you. The children are eager to share their achievements and demonstrate the skills they have learned.

We would be delighted if you could join us for this event to support and celebrate the efforts of our young learners. It promises to be an inspiring and informative showcase, and your presence would mean a lot to the children.

The showcase will take place on:

Butterflies: Tuesday 21st May at 2:30pm – 3:00pm

Dragonflies: Thursday 23rd May at 2:30pm – 3:00pm

Bumblebees: Friday 24th May at 2:00pm – 2:30pm

Please arrive at the office promptly. After the showcase, the children will meet you back at their classrooms where the teachers will dismiss as normal.

Thank you for your continued support.

Warm regards,

Year 1 Team
