

# Welcome to the Zoo

*Hello Zoo keepers!*

*So far in the project you should have built the main structure of the zoo and designed a sign to hang above the entrance. Now you have chosen your animals, today you will enjoy filling the Zoo with the rescued animals that arrive from all over the world!*

- 1. Can you fill your zoo with the animals you have chosen, you can draw them, paint them, make them with playdough, clay, stones or toilet rolls /or anything else you can find around the house!*
- 2. Can you make labels for the enclosures, so the workers know where to home the new animals as they arrive at the zoo. E.g. Monty the Monkey Tina the Tiger*
