Robot quest

Create a new quest for the robot in the book to go on. Think of three settings/places the robot will have to overcome in order to get the bluebird home safely and draw them in the boxes on the sheet provided.

Remember, this is a fantasy story, what are the characteristics of a fantasy story?

- *Imaginary setting*
- *Unlike the real world*
- *Extraordinary events*
- *Impossible things happen (like talking animals)*
- *Magic*

Think of these characteristics when planning your quest, the robot must go through places that are fantasy and do not exist in our world.

If you are finding it tricky to think of fantasy places for the robot to travel through, first think of something that exists in our world, for example a lake.

Then think about how you could change the lake so it exists in a fantasy world for example 'A huge lake full of boiling, bubbling lava.'

Do not fill out the lines underneath the pictures as they are for tomorrow's learning

Create a new quest for the robot.

Where will the robot go?

What challenges will it face?

- *Use –ed spelling for past tense*
- *Add adjectives to make your quest sound more exciting.*
