

You will need a dice and the board game! If possible print out the game so you can play along at home.

**How to play:** You will need a die and a stack of question cards. When it is your turn, roll the die and move the number of spaces shown on the die. If you land on a square with a character on it pick up a card and answer the question. The winner is the first person to the finish.

# Reading Game, cut out the question cards.
