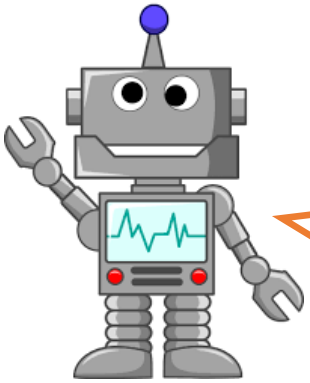
Writing instructions to make a jam sandwich...



Remember to:

-sequence the instructions in order

-use sequencing connectives first, next, then, finally

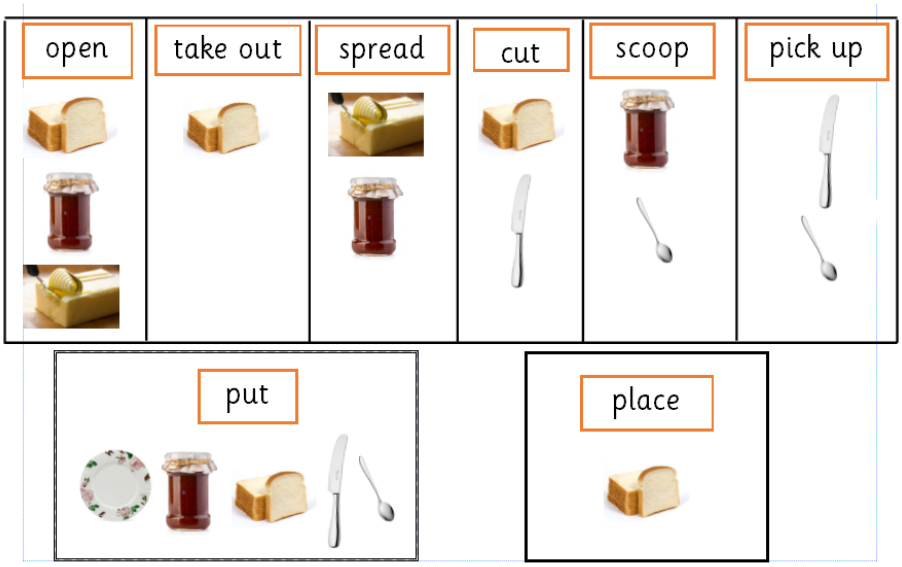
-use imperative verbs

-use adjectives for detail

Sequencing connectives:

First **Next** **Then** **After that** **Finally**

Imperative verbs:



Remember the imperative verb is the action that the robot must do.

Adjectives to give detail:

First, take out two pieces of bread and place them gently on the plate next to each other. Then, open the butter packet and pick up the knife carefully. Scoop a small amount of butter onto the knife.

Example of outcome by Miss Tatler

Write algorithms to instruct a robot **Name_____ WB 27.4.20**

Title: How to make a ham salad sandwich

You will need:

Bread

Butter

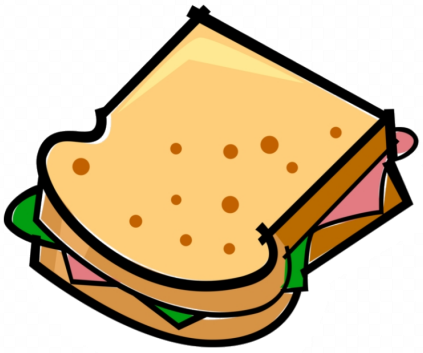
Ham

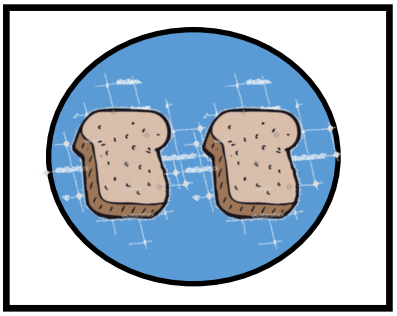
lettuce

A knife

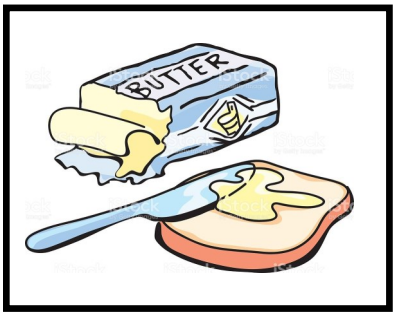
A plate

Draw a picture of your favourite sandwich:

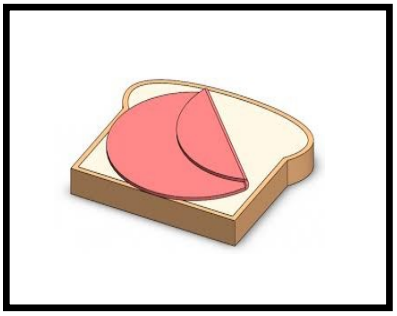




First, take out two pieces of bread and gently place them on the plate next to each other.



Then, open the butter and carefully pick up the knife. Scoop up some butter with the knife and softly spread it onto the bread, until the whole piece is covered. Put the knife down.



Next, open the packet of ham and take out 1 slice. Lay the slice of ham carefully on one slice of bread.
