

Today you will become number investigators. Can you complete the 5's challenge and record your answers using different representations. You can journal (draw) your ideas in as many different ways.

## Investigation

1. Record how many fingers there are altogether in your family?
2. Record how many fingers and toes there are altogether in your family?
3. If you had 7 friends at a tea party, how many fingers would you count altogether?

Can you journal (draw) your ideas and show different representations

You can journal like this... **20** **5+5+5+5** or **4 lots of 5** or **4 x 5**
