

# Counting in multiples of 5

First you need to look at the number in the middle. Then can you record on one side the repeated addition equation and on the other side record it as a multiplication equation. You can use **5p coins** to help you or **100sq** from yesterday to help you.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

**= 35 =**

**= 50 =**

**=**

**=**

**5 x 12**

**= 5 =**

*Can you solve the word problems?*

Miss Tatler counts in 5's 6 times. Ms Bates said she will reach number 35. Is she correct? Why?

At the shop an apple cost 45p, how many 5p coins will you need to buy the apple?

I have six 5p coins, do I have enough money to buy a cup cake that costs 25p?

## Feeling extra spicy?
