

Today you will become researchers, can you select your favourite mini-beasts that you found yesterday and begin to discover interesting facts about them. Explore the key questions below to help you learn more. You can present your fact file as a poster, non-fiction book, information sheet or video. You can choose! Follow the link to a series of 'minibeast adventures with Jess on YouTube' <https://www.youtube.com/watch?v=a8xgh2H5dGw>

**How many legs?**

**Where is it's habitat?**

**What does it eat?**

**Who are it's predators?**

**What colours and patterns can you see?**

**How can it move?**

**What is interesting about it?**

**Why do you like it?**

## Natural Art Sculptures

Can you collect natural materials from your garden or outdoor space and create a natural sculpture of your favourite insect. How will you create texture and patterns? Have you added the correct amount of legs? You may want to take photographs of your finished sculptures. Below are some ideas for you to explore...
