Learn and discover at the magical

UCPS ZOO

The opening day last week was such a success that head teacher Mr H Popotamus has decided to bring his whole school, for the launch of their new Zoology learning topic. That will mean your zoo will be full of children ranging from 4-11 years old.

Today you must plan a fun day of activities for the children. You might want to put together a pack to complete as they walk around the zoo? A magical treasure map, with different objects to collect? Maybe even a fun animal quiz, to see how much they have learnt? What could the prizes be? Remember if Mr H Popotamus is impressed he might bring his school back next year and that is GREAT business for your zoo! Have fun Year 2!
