Learn and discover at the magical

UCPS ZOO

Your zoo is nearly there! But don't forget zoos are run a little like businesses. They need money from visitors to allow them to care for and protect the animals living there.

Now it is time to get that mathematicians hat on! How will your zoo have enough money to stay open? A bag of food for a carnivore costs £5, omnivore £4 and Herbivore £3. Can you work out how much it would cost to feed all the animals within your zoo? Set up a shop and buy your animals food. How are you going to pay? Do you need any change?

Your extra spicy challenge for today is to design zoo entrance tickets.
