

# Snakes and Ladders

You will need...

- A dice
- A counter per player

How to play...

1. Players take it in turns to roll the dice. The player with the highest rolled number goes first, the person with the second highest rolled number goes second and so on.
2. The player moves the counter the number of spaces shown on the dice, then says the name of the number that they land on. If they say the number correctly, they stay on the square. If they don't know it, or say it incorrectly, they move back to the square that they came from.
3. If a player lands on a snake's head, the player's counter slides down to the square at the bottom of the snake's tail.
4. If a player lands on the bottom of a ladder, the player's counter climbs up to the square at the top of the ladder.
5. The first player to reach 30 is the winner!

99 30	88 29	71 28	34 27	57 26
83 21	41 22	70 23	48 24	29 25
16 20	36 19	75 18	13 17	26 16
27 11	39 12	92 13	64 14	80 15
89 10	73 9	18 8	45 7	77 6

# Snakes and Ladders

You will need...

- A dice
- A counter per player

How to play...

1. Players take it in turns to roll the dice. The player with the highest rolled number goes first, the person with the second highest rolled number goes second and so on.
2. The player moves the counter the number of spaces shown on the dice, then partitions the number into tens and ones, e.g. 34 = 3 tens and 4 ones. If they correctly partition the number, they stay on the square. If not, they move back to the square that they came from.
3. If a player lands on a snake's head, the player's counter slides down to the square at the bottom of the snake's tail.
4. If a player lands on the bottom of a ladder, the player's counter climbs up to the square at the top of the ladder.
5. The first player to reach 30 is the winner!
