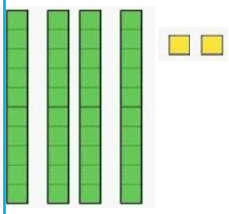
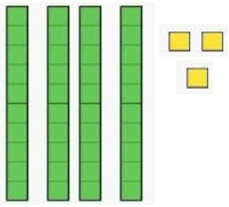
Monday 22.11.21

MPI add and subtract one more and one less from a 2-digit number

What numbers are being shown? Write these in the place value charts.



Tens	Ones

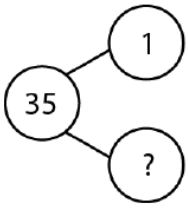


Tens	Ones

Complete the equations using the representations to help you:

42 + 1 = _____ 43 - 1 = _____

'Fill in the missing numbers.'



$35 = \square + 1$

$35 = 1 + \square$

$\square + 1 = 35$

$1 + \square = 35$

$35 - 1 = \square$

$\square = 35 - 1$

'Fill in the missing numbers.'

$27 + 1 = \square$ $\square = 42 + 1$

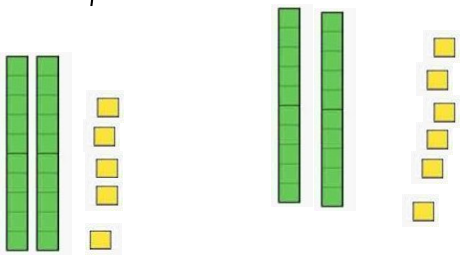
$1 + 87 = \square$ $\square = 1 + 54$

$42 + \square = 43$ $94 = \square + 93$

$63 - 1 = \square$ $\square = 82 - 1$

What's the same? What's different?

What + and— equations can you write using the two numbers represented?



Thursday 26th November 2021

MPI adding and subtracting one-digit numbers from two-digit numbers.

$10 = 5 + 5$

$20 = 15 + 5$

$30 = 25 + \square$

$40 = 35 + \square$

$50 = \square + 5$

$60 = \square + 5$

$\square = 65 + 5$

$\square = 75 + 5$

$\square = 85 + 5$

$\square = 95 + 5$

$8 - 4 = 4$

$18 - 4 = 14$

$28 - \square = 24$

$38 - \square = 34$

$\square - 4 = 44$

$\square - 4 = 54$

$68 - 4 = \square$

$78 - 4 = \square$

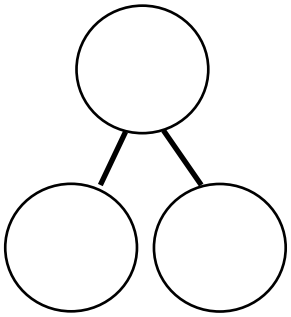
$85 - 3 = \square$

$65 - \square = 63$

$25 = \square - 4$

Draw a part-part-whole.

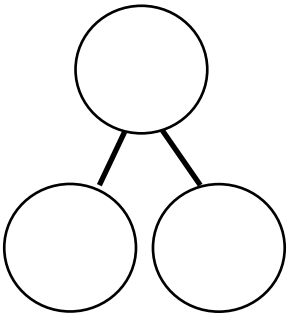
57 - 6 = _____



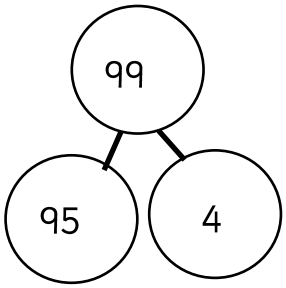
Now draw dienes

Draw a part-part-whole.

85 - 3 = _____



Now draw dienes

If I know 9 - 4 = 5, what are all the two-digit subtract one-digit equations you can answer using this. Journal all the answers.


Eg. 99 - 4 = 95
