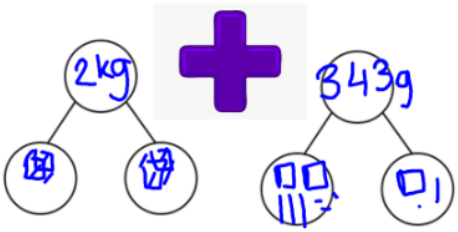
Adding and subtracting mass

Part A

Use part whole models to partition your values. You can always draw these and the dienes into your book, like the example.



1) 4kg and 500g + 2kg and 100g = _____kg and _____g

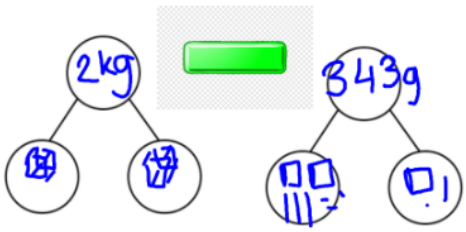
2) 3kg and 450g + 6kg and 300g = _____kg and _____g

3) 7kg and 445g + 1kg and 145g = _____kg and _____g

4) 3kg and 320g + 4kg and 290g = _____kg and _____g

Part B

Use part whole models to partition your values. You can always draw these and the dienes into your book, like the example.



5) 6kg and 850g - 1kg and 310g = _____kg and _____g

6) 8kg and 790g - 4kg and 230g = _____kg and _____g

7) 5kg and 250g - 2kg and 115g = _____kg and _____g

8) 7kg and 620g - 2kg and 350g = _____kg and _____g
